Some things to remember:

- add .0.25" bleed if you want colours or images to go to the edge

Example:

Print file   Finished product

-Text smaller than 10pt. or 1/8" may be hard to read.

☐ (green) Safe area

☐ (magenta) Visible area

☐ (blue) Bleed

*Please export as a vector file if possible - If not, please export as a jpeg in CMYK at 600 dpi at full size
*Please remove all lines before exporting. Export only what is to be printed.
